REMARKS

SUBJECTS	COMMENTS
Speaking	You can easily express yourself in simple sentences and often speaks using simple phrases or word and the topics are very familiar. There are some grammatical you need to improve especially, passive voice and active voice. In order to connect sentences more fluently, you require an improvement in the usage of using adverbs and adjectives. A possible reason for your communication problems is due to using a limited range of vocabulary, but it could be improved by speaking on a variety of topics.
Listening	You were enjoying to listen to some stories and have some good reaction back. It indicated that you are an excellent listener. Basically, you have shown a good general understanding of the main point of the information presented to you verbally. To support listening comprehension, we recommended you listen to English podcasts, news or English film daily.
Reading	Your reading comprehension level is defined as intermediate. Although you have confuses of the sounds /l/, /r/, /s/, /z/, /ea/, and some word stress, practicing more could help you to familiar with this easily. It was impressive that you understand a variety of English vocabulary across contexts with appropriate speed, rate and uses punctuation correctly. In the long run, you may use those vocabularies to adapt to your speaking skill afterward.

TEACHER'S EVALUATION

EVALUATION

Good day!

Erina Nakamura, based on your entry test result last July 03, 2020, your level shows that you are E3 (Pre-intermediate) which is classified to the CEFR level as A2-B1.

Regarding 3 fundamental skills: speaking, listening, and reading, you are having a bit difficulty in speaking because you couldn't really express some ideas fluently. Although you have a various vocabulary, sometimes you still used only simple words. This showing that you should practice more by trying to read out loud some more variety of topics. Once you are familiar with it, next time it will be easier to pick those vocabularies in building a new sentence.

However, your pronunciation is needed to focus a bit more. Especially in ending sounds and words stress that needs some improvement. With greater effort, the improvement will slowly come. The best way to remember how it's pronounced is to use it right away, so it will stay in your memory. We believed you will have less trouble in pronunciation soon. Nevertheless, it was impressed that you can use the vocabulary and sentence in the appropriate order. Hence making it more perfect, we highly recommended you keep reading some English articles for greater usage.

As we are the very first school in Cebu to develop intensive English programs, we aim to support our students in achieving more proficiency in English to every student. Thus we hope after the lesson, you will be able to speak and use English confidently. We are looking so much forward to seeing you in our class soon.

You are always more than welcome to contact our EV team as you may have any inquiries.

Thank you very much for choosing EV academy.

TEACHER'S WEEKLY EVALUATION

WEEK	EVALUATION
1 week	Erina is a very kind student. She respects everyone and she always smiles. She is always present in class and she is never late. She even comes to classroom before the bell rings. She is a smart student. She can understand the presented topics and concepts with ease. If she has a hard time understanding something, she asks politely. She intently listens to the corrections and suggestions given by the teacher. So far, she is doing great in class. She just needs to improve her pronunciation, grammar and learn more vocabulary.
2 week	Erina is a very studious person. Whenever we have activity in class, it only takes a short time to accomplish them. She can answer the questions asked to her quite easily. She can also get a good score in the book activities. She can converse using the language and I can see that she is comfortable and confident using it. It's just that she often has grammar errors especially with the verb tenses and the proper part of speech to use in a vocabulary. She needs to improve those aforementioned points.
3 week	Erina has been constantly improving since she first step into the class. She is so passionate about learning the language. She carefully follows the teachers' instructions and she accomplishes the tasks given to her. She is very open to corrections, suggestions and constructive criticisms. She can even correct her own mistakes. She is very open to discuss any topics related to class and she is very willing to share her ideas confidently. She has learned vocabularies and she incorporates them whenever she can. She still has to be very careful with her grammar especially when speaking.
4 week	Ever since, Erina has been very kind and polite to everyone especially to the teachers. Although she has lapses especially in grammar and pronunciation, she is able to improve them by constant practice and by listening to teachers' suggestions/ recommendations. She is very eager to learn the language and she has a very positive attitude towards learning. She can improve her skills more by constantly using the language especially in casual/daily conversation. She can also watch english movies and listen to english songs so she could learn more vocabulary and adapt the language accent.
